Company recommendations:

**Targets:** The company requires targets which are comprehensive enough to hold management to account for short, medium and long-term action to reduce emissions.

**Emissions reductions and reporting:** To remain aligned with its 1.5°C pathway, the company needs to continue to reduce its emissions intensity at the current rate.

**Transition plan:** The company can improve the elements of its transition plan by ensuring it includes medium and long-term targets, verifiable and quantifiable key performance indicators and financial commitments. The plan should be informed by scenario analysis to ensure that the plan’s ambition is sufficient for a 1.5°C pathway.
